Summary of Qualifications

Since taking my first quilting class over 20 years ago, quilting has been a very important part of my life. My studies have included intensive design courses in England and Canada, as well as quilting techniques, history, fibre and dyeing workshops. My business partner, Daphne Greig, and I have formed **Patchworks Studio**, a quilt pattern company that has received generous support around the world. I have co-authored "**Quilted Havens**" with Daphne Greig, published in 2000 by the American Quilter's Society and "**Fat Quarter Frenzy**" in early 2005.

Teaching Experience

I encourage quilters, both newcomers and the more experienced, to enjoy the process, to gather as much knowledge as possible and to challenge themselves with new techniques and processes. I have taught classes at basic, intermediate and advanced levels and students have described my classes as informative, fun and inspiring.

1994-present	Satin Moon Quilt Shop , Victoria, BC
